0/10 Awkwardly Lame. Silly Audio book ahead, you've been warned.. Took 40 minutes ti finish paid 49 pence. Worth it? Yes I think so, decent story good voice actors and delivered what it promised. An ausiobook adventure game you can literally play with your eyes shut. Shame about the longevity, will need to idle for the last trading card. A cheeky acheivement or two would have been nice. There is only one story and as far as I know one end (or I got it right first time). For people with visual impairments such as myself this is a good example of what can be done, just needs more meat on the bones.. I honestly liked this game. It was short, sweet and to the punch. I wouldn't mind going on more adventures to stealwith Hank and TEDI throughout time. P.S.. Ok I enjoyed the game. The Audio was not bad. but its short. And no way to lose. I would love to see this style continued.. I'm giving this a yes, because I'd give it a 6/10. It's kind of funny, but I didn't expect to finish it in 20 minutes. Honestly, I would just kind of suggest that you play it when you don't have to pay for it.. I honestly liked this game. It was short, sweet and to the punch.
